MAROOF AHMED DURWESH

Full-Stack Developer | Software Engineer | AI Enthusiast

maroof.durvix@gmail.com +92 3703147721 Karachi, Pakistan Protfolio

Maroof Ahmed Durwesh Job Genie Solutions

PROFILE

Results-driven Full-Stack Software Engineer and Founder of DURVIX with extensive hands-on expertise in architecting high-performance web systems, custom dashboards, and cross-platform applications. Proficient across a diverse modern tech stack including React, Angular, PHP/Laravel, Node.js, Flutter, and C# .Net. Expert at leveraging advanced AI tools and autonomous workflows to accelerate enterprise delivery cycles without compromising code quality. Strong foundation in system optimization, database design, and technical engineering."

PROFESSIONAL EXPERIENCE

Founder & Lead Software Engineer, *DURVIX | – Present | Karachi, Pakistan*
08/2024 – Present
Karachi, Pakistan

- Founded and managed DURVIX as a premier software development firm delivering scalable web and mobile applications for global clients.
- Architected end-to-end digital systems, integrating secure backend structures with fluid, high-conversion frontend interfaces.
- Handled client consultations, project scopes, technical audits, and full-stack production deployments.

Full Stack Developer Intern, *Scitforte*
04/2026 – 06/2026
Karachi, Pakistan

- Contributed high-quality production code alongside professional software engineering teams in an intensive 2-month program.
- Developed modular frontend components in React.js, integrated RESTful APIs, and optimized database query speeds.
- Participated in agile workflows, debugging complex logic to ensure seamless cross-device responsiveness.

Full Stack Web Developer, *Freelance / Contract*
01/2025 – Present
Karachi, Pakistan

- Engineered and deployed scalable web applications utilizing Laravel frameworks and dynamic React frontends.
- Built custom administrative dashboards, secure API gateways, and optimized relational databases in MySQL.
- Integrated AI-driven coding workflows to maximize delivery speed and maintain clean, scalable software architecture.

SKILLS

- **Frontend Development::** React, Angular, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Next.js, Responsive UI/UX, Framer Motion.
- **Backend Development::** Laravel (PHP), Node.js, Express.js, C# (.NET Core), Python, Flutter, Dart, RESTful APIs.
- **Databases & Systems::** MySQL (Design & Performance Tuning), SQL Server (SSMS), Firebase.
- **AI-Assisted Engineering::** Advanced Prompt Engineering, Enterprise Workflow Automation, Intelligent AI Agents Integration, Autonomous Coding Workflows.
- **Developer Tools::** VS Code, Git/GitHub, MS Office (Advanced Excel) XAMPP, Postman.
- **Soft Skills::** Full-Stack Architecture, Problem Solving, Creative Thinking, Dynamic & Adaptable, Team Leadership, Technical Leadership, Client Management Project Manager and Fast Learner

EDUCATION

Intermediate (Pre-Engineering), *Government Degree Boys Gulzar Hijri College*
08/2022 – 08/2024
Karachi, Pakistan

Matriculation Computer Science, *Government Degree Boys Asif School*
08/2020 – 08/2022
Karachi, Pakistan

CERTIFICATES

PHP/LARAVEL Developer Intern Certification: Scitforte

Advanced Diploma In Software Engineering (ACCPAI): Aptech Institute Malir Center | Karachi in Present

INTERESTS & PASSIONS

- **Artificial Intelligence & Automation:** Exploring AI tools, building smart workflows, and experimenting with autonomous agents.
- **Software Innovation:** Full-stack development, modern UI/UX design, and solving complex algorithmic challenges.
- **Continuous Learning:** Adopting emerging technologies, technical writing, and collaborative engineering projects.
